Mixed legal systems refer to a combination of elements of the legal systems described above. In the United States, the most noteworthy mixed law system is found in the State of Louisiana, which has elements of both civil law and common law.

Mauritius has a Hybrid Legal System - Law Teacher

Sources of Mauritian law as a hybrid legal system

The legal system of Mauritius is hybrid, with parts of English, French, and local law integrated into the legal code. The civil law is derived from the Napoleonic Code, while the common law is based on the English legal system. The penal code is also a blend of English and French laws.

Comparative Law and the Study of Mixed Legal Systems

Abstract and Keywords

Legal systems generally are 'mixed' in the sense that they have been influenced by a variety of other legal systems, which include civil law, common law, religious law, and customary law. This factor is pertinent in examining if a pure legal system truly exists.

What is a Mixed Legal System? Exclusion or Expansion?

Mixed legal systems - University Law - Marked by Teachers.com

Both definitions effectively indicate that a 'mixed legal system' is one where the common laws and the civil laws have been influenced by other systems to varying degrees. Accordingly, this term is pertinent in examining if a pure legal system truly exists.

What is a mixed legal system? | Study.com

A mixed legal system is a legal system that is characterized by the features of two or more other legal systems, which include civil law, common law, religious law, and customary law. This factor is pertinent in examining if a pure legal system truly exists.

Mixed legal systems (Chapter 17) - The Cambridge Companion to Comparative Law

A recent study maintains that ninety-one legal systems may be categorized as 'civil law', and forty-two are 'common law'. These systems are further divided into 'mixed law', 'penal law', and 'Muslim law'.

Religious legal systems are systems where the law emanates from texts or traditions within a given religious tradition. Islamic law is the most well-known example of a religious legal system. Mixed legal systems refer to legal systems where two or more of the above legal systems work together.
