If you're on your own, here are some tips to follow until the ambulance gets there: If the victim is face down and unconscious, roll her on her back, face up. If the victim has fluid, blood, vomit or food in his mouth, roll him on his side with his arm under his head. Stop any bleeding by putting ...

The ABCs of First Aid Everyone Should Know

If a victim is unconscious, your first priority is to check that their Airway is open, that they are Breathing, and that they have a pulse or other signs of Circulation, such as movement, groaning, or coughing -- these are the ABCs of emergency first-aid. Check that the airway is open, the victim is

First Aid ABCs | HowStuffWorks

ABC in first aid is a list of important things that first aiders must check when dealing with a patient, including airways, breathing and circulation. ABC is part of what St Johns Ambulance calls DR ABC, a general set of first aid steps. The 'DR' part makes sure that the person is safe from further harm, but if not, ABC is used to diagnose a problem.

What Is ABC in First Aid? | First Aid

The ABC of first aid is a mnemonic designed to help people remember how to respond to an emergency situation in which someone is injured. There are many other mnemonics and variants, but it is probably the most useful one for lay people to remember. The letters stand for Airway, Breathing, and Circulation, also referred to as the vital signs.

What is the ABC of First Aid? (with pictures)

Loosen or remove his clothing and boots (unless in a chemical environment); pour water on him and fan him. Have him slowly drink at least one canteen of water. Elevate his legs. If possible, the casualty should not participate in strenuous activity for the remainder of the day.

ABC First Aid

So, I read about basic first aid on sites like WebMD, the Mayo Clinic, and the Red Cross.I pulled out the survival pocket guide and first aid cards from my 72-hour kit, and I studied. It was important that I focused on the essential, life-saving skills first if anyone in my family encountered life-threatening emergencies.
