Acids And Bases Webquest & Worksheets | Teachers Pay Teachers

Acids & Bases: WebQuest: Answers - Blogger. Acids are paired with bases. One can accept a proton and the other can donate a proton. Each acid has a proton available (an ionizable hydrogen) and another part, called the conjugate base. When the acid ionizes, the hydrogen ion is the acid and the rest of the original acid is the conjugate base.

Acids And Bases Webquest Answers

Originally the terms acid and base referred to taste. The practice of classifying substances according to their acidic (sour) or basic (alkaline or bitter) properties dates back to ancient times. An acid was something with a sour taste, such as lemon juice, and a base was something with a bitter taste, such as tonic water.
