Anaerobe laboratory manual : by the staff of the Anaerobe ...

The broad classification of bacteria as anaerobic, aerobic, or facultative is based on the types of reactions they employ to generate energy for growth and other activities. In their metabolism of energy-containing compounds, aerobes require molecular oxygen as a terminal electron acceptor and cannot grow in its absence (see Chapter 4). Anaerobes, on the other hand, cannot grow in the presence ...

(WHO) tirst published a Laboratory Manual for the Examination oj' Hzirizan Semen and Se–nen-Cerviml Mucus Interaction in 1980. The second and third editions of the manual followed in 198 7 and 1992. These publications have been used extensively by clinicians and researchcrs worldwide. Indeed, the third edition was translated into

WHO LABORATORY MANUAL

For more than 20 years, since it was first published in 1983, the Laboratory biosafety manual has provided practical guidance on biosafety techniques for use in laboratories at all levels. Good microbiological technique and appropriate use of biosafety equipment by well trained staff remain the fundamental elements of laboratory biosafety. For this new edition, therefore, the manual has been ...
