Data Protection Toolkit

The Data Security and Protection Toolkit is an online self-assessment tool that allows organisations to measure their performance against the National Data Guardian's 10 data security standards. All organisations that have access to NHS patient data and systems must use this toolkit to provide assurance that they are practising good data security and that personal information is handled correctly.

Data Security and Protection Toolkit

Data protection concerns the right of the individual to decide on the use of their data, to protect their privacy and to protect against misuse of data (e.g. by companies or governments). Examples include the privacy of correspondence, e-mail encryption, privacy settings on Facebook, digital source protection in investigative journalism.
