I found one in the Icom IC-707. This rig of mine has the narrow CW filter (which is kinda essential for serious cw work) but no FM option and I haven't missed it! The rig does everything that is asked of it, puts out a good signal, has a ripper of a NB/preamp/attenuator which REALLY work, and hasn't faltered being on 12 hours a day.

Repair never truly made Time Owned: more than 12 months.
After reading many of the non-5 star reviews I felt compelled to
add this long over-due follow-up to an earlier repair (a repair in
theory anyway) on my Icom IC-R71a. I had sent the radio to Hal
for an intermittent display/receive issue.
