

Economics Cafe provides economics lecture notes which are not confined to use by students taking economics tuition at the learning centre. They have been written by the Principal Economics Tutor, Mr. Edmund Quek, for everyone who can benefit from them. The explanations of economic theories and concepts in the lecture notes are kept concise by design so that they can be produced by students ...

Economics Lecture Notes - Chapter 2

Economics, in his book entitled 'An Enquiry into the Nature and Causes of the Wealth of Nations' (Published in 1776) defined Economics as a study of wealth. Smith considered the acquisition of wealth as the main objective of human activity. According to him the subject matter of Economics is the study of how wealth is produced and consumed.

In mathematics, delay differential equations (DDEs) are a type of differential equation in which the derivative of the unknown function at a certain time is given in terms of the values of the function at previous times. DDEs are also called time-delay systems, systems with aftereffect or dead-time, hereditary systems, equations with deviating argument, or differential-difference equations.

Delay differential equation - Wikipedia
