How Does Your Emotional Intelligence Influence Creativity ...

Ironically, when we most need creativity, we tend to be in an emotional state where creativity is least accessible. Fear and distress activate the limbic system at the base of our brains. This shuts off the cerebral cortex, where creativity and problem-solving live. Love is the antidote to fear and the wellspring of creativity. Creativity is not so much making something new as it is recombining the old.

Creativity and Emotional Intelligence • Six Seconds

2Yale University ABSTRACT Three studies examined the relationship between emo- tional intelligence (EI) and emotional creativity (EC) and whether each construct was predictive ofcreative behavior. It was hypothesized that the relationship between EI and EC corresponds to the relationship between cognitive intelligence and creative ability.
