IBM has announced the end-of-support (EOS) dates for three generations of Netezza / IBM PureData analytics appliances. Below is a table that provides the EOS dates for each model, along with a link to the associated IBM published notification.

Netezza End-of-support information | Matrinsic

As of June 30, 2019, Netezza is no longer supported by IBM. This was rumoured for a while and vehemently denied by IBM. Twenty years ago, when IBM first purchased Netezza famously for \$1.7B , Netezza was considered a premium state-of-the-art database appliance with world-beating performance for large business critical databases.

RIP Netezza: Killed by the Cloud | Next Pathway

IBM Netezza (pronounced ne-teez-a) is a subsidiary of American technology company IBM that designs and markets high-performance data warehouse appliances and advanced analytics applications for uses including enterprise data warehousing, business intelligence, predictive analytics and business continuity planning.

Netezza - Wikipedia

IBM Netezza Performance Server is rated 8.0, while SQL Server is rated 8.4. The top reviewer of IBM Netezza Performance Server writes "The underlying hardware is made for performance on large amounts of data, and for analytics". On the other hand, the top reviewer of SQL Server writes "Stable with a straightforward setup and the capability to ...
