Black and White Thinking: How It Can Limit You and How to Stop

A reckoning with the way we choose to see and define ourselves, Self-Portrait in Black and White is the searching story of one American family's multigenerational transformation from what is called black to what is assumed to be white. Thomas Chatterton Williams, the son of a "black" father from the segregated South and a "white" mother from the West, spent his whole life believing the dictum that a single drop of "black blood" makes a person black.

Self-Portrait in Black and White: Unlearning Race ...

Most early forms of motion pictures or film were black and white. Some color film processes, including hand coloring were experimented with, and in limited use, from the earliest days of motion pictures. The switch from most films being in black-and-white to most being in color was gradual, taking place from the 1930s to the 1960s.
