Personal Helicopter | Motorcycle of the air - Helicycle

Of course, the HeliCycle design is different from the R22. First of all, it is in the experimental category and delivered as a kit. In addition, the HeliCycle is a single seater model and powered by a gas turbine engine (using the very reliable Solar T62), which also gives it very good power handling characteristics.

Eagle R&D HeliCycle helicopter

The Eagle Helicyclé is a single seat small kit-built helicopter powered by a modified T62-T32 150SHP turbine engine. The Helicycle is a small personal helicopter that is sold as a kit for anyone who wants to build their own flying turbine helicopter.
