Masculinities, Crime and Criminology presents an innovative and timely reading of issues which are central to the questions that have arisen in criminology: Why is crime so overwhelmingly an activity conducted by men? Is crime a 'masculine' phenomena?

Masculinities, Crime and Criminology by Richard Collier
This essay examines the link between crime and masculinity. It begins with an overview of traditional criminology that either ignored or had a skewed understanding of the nature of the crime-masculinity connection, focusing instead on biology, which often considered crime as a reflection of defective male and female bodies/identities.

Masculinities, Crime and - Messerschmidt - - Major ...
The development of a masculine criminology is something that has been missing from much of the criminological literature. Until recently, there was little consideration given to the concept of masculinity as a tool for understanding men and criminal behaviour.

Masculinity and Criminology: The Social Construction of ...
Masculine identity, and the relationship between masculinity and crime, has rightly been the focus of a great deal of academic attention over the last ten years. Much of the theoretical and substantive history of criminology as a discipline has dealt with issues relating to masculinity, without tackling the subject head on.

Masculinities and Crime
Masculinity Theory. Men's traditional role has been that of family provider/breadwinner, and the types of behaviour they are encouraged to adopt is as the independent, self-confident, tough, competitive, aggressive, dominant and risk-taking. The male peer group reinforces these tendencies, particularly among younger men, and this can lead to higher risks of crime and delinquency.
