National™ | Bearings & Seals — CARiD.com

The grease seal needed for your axle will determine the correct bearing kit for your 6,000 pound axle, same as the 5,200 pound axles. The two different size seals are the same for this size axle. It will either require a 2.25 inch inner diameter seal or a 2.125 inch inner diameter seal.

Most Popular Trailer Wheel Bearings | etrailer.com

The # 168233 Double Lip Grease Seal has an outside diameter of 2.332 inches and an inside diameter of 1.688 inches. This seal is not compatible with a AF2527E seal with a O.D 2.312, because, even though the O.D. id very close, the inner diameter of the is seal is 1.750 inches and would not be the correct fit for the spindle diameter.
