language learning ability were studied by first administering the Eysenck Personality Questionnaire (EPQ) to 41 tertiary level students learning French as a second language. Subsequently, it was possible to examine relationships between scores on the EPQ scales and marks obtained in the French oral and written examinations.

Personality and second language learning - ScienceDirect
Personality and Second-Language Learning: Theory, Research, and Practice. Personality has largely been ignored or written off as a variable in second language learning. However, it should be considered as an alternative research perspective for four reasons: (1) the writing off of personality variables in second language research has been unjustified, and results from giving credibility to studies based on ill-conceived assumptions; (2) a sufficiently detailed and elaborated theory of ...
