Renault Laguna Petrol And Diesel (1994 2000) Service And ...

The Renault Laguna is a large family car by European standards, and was marketed by the French manufacturer Renault from 1994 to 2015. The first Laguna was launched in 1994, the second generation was launched in 2000, and the third generation was launched in October 2007. The regular production Renault passenger models are unrelated to the concept car of the same name, the Laguna, a two seater ...

Renault Laguna - Wikipedia

Although a wider range of petrol engine options was initially offered, the Laguna's engine range has always been biased towards diesel. It's diesel which the fleet business that props up this sector of the market is focused on and it's diesel that will make most sense for the majority of used buyers.

Renault Laguna III (2007 - 2010) used car review | Car ...

The Renault Laguna Mk2 was launched in February 2001, as a 5-door hatchback or estate with a comprehensive range of petrol and diesel engines. Some of the innovations offered on the car included: a keyless card-entry system, tyre-pressure monitor, engine immobiliser and an assortment of handy storage compartments.

Renault Laguna Petrol & Diesel 2001 - 2007 (MoI4283 ...

The Laguna has been reliable and very comfortable. The performance is good and the Diesel engine makes like of hills and is very quiet. Much superior to some petrol cars that I have driven during the same period. It is sad that Renault has discontinued the Laguna as it will be difficult going to another make for a replacement. Haynes Repair Manual Renault Laguna 1

The G engine was designed in the late 1980s to be a modular family of overhead camshaft inline 4- and 5-cylinder petrol and diesel engines. A G7R petrol and a G8T Diesel variant were in development when Renault announced a merger with Volvo who was designing its own modular family along the same lines.

List of Renault engines - Wikipedia

This 16 valve DI engine is installed in the Megane coupé and convertible, as well as the Laguna 2. This was the first production French petrol engine with direct injection. In 1999, Renault launched the Clio 2 RS, powered by the 1,998 cc (2.0 L) F4R 16 valve engine with 172 PS (127 kW; 170 bhp).

Renault F-Type engine - Wikipedia

The ride is noticeably firmer on more recent models, but not at all uncomfortable and the Laguna handles well in the corners as you'd expect from a front wheel drive car. While there are petrol and diesel engines available, don't expect to reach warp speed as they aren't particularly powerful, but they do give attractive economy ratings.

50 Used Renault Laguna Cars for sale at Motors.co.uk

The only petrol engine available was the 2.2 L 8 valve (carburetor for the early production, fuel injection for the later models), and the only diesel engine available was the 2.1 L. Both engines were available for the three body versions. The liftback was imported from France and called by the trim "Alizé". Was replaced for the Laguna.

Renault 21 - Wikipedia

Diesels typically produce less CO2 than petrol engines with similar power outputs. The range is also fairly economical, averaging 39 mpg. Electrics may leave you stranded if they fail - and although the Laguna's interior doesn't have the durability or quality finish of rivals, this was improved in 2005.
