PCB / Breadboard. Power sources / connectors. Components. Capacitors. Resistors / pots. ICs / semiconductors. Optoelect / transducers. The HiViz.com WorkShop ICs and Semiconductors . These are the chips and semiconductors used in our kits. Click on any image for a larger view. EC103D Silicon-controlled rectifier (400 V, 0.8 A) ...

HiViz.com - Kits - ICs and semiconductors

Many books and guides have circuit diagrams for you to follow along while building your circuit. Just remember that the circuit you're building doesn't have to be in the exact same location on the breadboard as the one in the book. In fact, it doesn't even have to look similar. As long as all the electrical connections are being made, you ...
