Trilogy 100 Ventilator Instructions - MedView Systems

Low-priority alarms tell you that there has been a change in the patient-ventilator system. During a low-priority alarm, the yellow low-priority indicator lights, the low-priority audible alarm (two tone, non-repeating) sounds, and the upper screen displays an alarm message.

Puritan Bennett™ 840 Ventilator Product Support | Medtronic

Once the set tidal volume has been delivered, the ventilator looks at the inspiratory flow. Should the peak inspiratory flow be greater than set peak flow, the ventilator determines that the patient continues to demand flow. The breath then cycles when inspiratory flow falls to 25% of the peak inspiratory flow.

AVEA ventilator - CareFusion
